## ARE NOT ALL AGREED.

Opposition to Monetary Commission's Plans.

## IT IS QUITE FORMIDABLE.

The Merchants' Association of New York Has Taken a Determined Stand Against the Scheme as Contemplated.

Indianapolis, Jan. 27.—The merchants' association of New York, representing thousands of business houses and millions of capital, through its representatives sent to the monetary convention, has announced that the bill incorporating the plan of the commission will be fought in congress in its present form and changes must be made.

They came here prepared to protest on the floor of the convention and offer amendments. Leaders of the movement argued to them the importance of a united front to secure some action from congress towards currency reform, and they contented themselves with filing their proposed changes with the convention, which railroaded them to the resolutions committee unread and they died there.

The representatives are anxious for currency reform, and so agreed not to make their fight at the present stage. Mr. Cross said, under the plan, it would be possible for swindlers to organize a chain of banks, place the stock in irresponsible hands, loot the concerns with straw investments and leave the honest banks to bear the loss.

## MONETARY CONVENTION

Adopts Resolutions Outlining Its Policy on Currency Reform.

Indianapolis, Jan. 27.—It was not expected that the monetary convention would remain in session more than two days, and this expectation was realized. It settled down to work promptly at 10 o'clock and adjourned at 2 o'clock, subject to the call of the chairman, Mr. Hugh Hanna.

The following resolutions were adopted:

First.—To renew, at once and forever, all doubt as to what the standard of value in the United States is and is to be.

Second.—To establish the credit of the United States at the highest point among the nations of the world.

Third.—To eliminate from our currency system those features which render and experience show to be elements of weakness and danger.

Fourth.—To provide a paper currency convertible into gold and equal to it in value at all times and places, in which, with a volume adequate to the general and usual needs of business, there shall be combined a quality of growth and elasticity through which it will adjust itself automatically and promptly to all variations of demand.

Fifth.—To so utilize the existing silver dollars as to maintain their parity with gold without imposing undue burdens upon the treasury.

Sixth.—To avoid any injurious contraction of the currency.

Seventh.—To avoid the issue of interest-bearing bonds except in case of unlooked for emergency; but to confer the power to issue bonds when necessary for the preservation of the credit of the government.

Eighth.—To accomplish these ends by a plan which would lead from our present confused and uncertain situation by gradual and progressive steps, without shock or violent change, to a monetary system.

Ninth.—Approving of the expressed purposes of the commission and of its plan, we do most earnestly and cordially commend it to our fellow-citizens as worthy of their approval and adoption, and we urge upon the congress that the principles embodied by the commission in their report should be enacted into law, with the belief and expectation that the effect would be to secure a solid and stable financial system that would redound to the credit of the country and insure a state of prosperity.

Tenth.—The time has now come when the prospects for the establishment of the gold standard upon a firm and enduring basis are brightening and encouraging. The people want a note currency which shall be as good as gold. This movement proposes to bring about that result.

Eleventh.—The people of the western and southern states wish the issues so distributed as that the scarcity of currency will no longer humper and distress them in their business operations. A method is proposed whereby their wants can be supplied and their demands can be complied with.

Twelfth.—That the executive committee be continued with power and authority to add to their number and to fill any vacancies which may occur, and also with power and authority to adopt such measures for procuring the needed legislation from congress as they, in their judgment, may deem advisable and expedient.

## State Bank Notes.

Brownstown, Ind., Jan. 27.—The grandchildren of Hamlin Smith, postmaster, while rummaging in a garret, found three bank notes in an old pocketbook. Two of the notes were issued in 1818 by the branch of the old State bank, located at Brookville. One note is of the denomination of 12½ cents, and the other 6½ cents; a bit and sixpence, respectively. The other note calls for \$10, and was issued by the Bank of Gallipolis, O., in 1837. The pocketbook belonged to Mr. Smith's grandfather, who has been dead for 40 years.

## Will Push It Along.

Indianapolis, Jan. 27.—The monetary executive committee was in session most of the afternoon discussing plans for furthering the educational feature of the work. It was decided to continue the Washington and Indianapolis bureaus indefinitely, and to attempt by the dissemination of literature to work up popular sentiment for the commission's plan, rather than to convert individual congressmen. Chairman Hanna was given carte blanche to conduct a campaign along this line.

## Arrest of Pearman.

Brazil, Ind., Jan. 27.—The police arrested Samuel Pearman, alias John Howard, wanted at Veedersburg. A month ago Allen Curtis and Pearman, it is charged, entered the home of Enoch Thompson and wife, an aged couple living near Veedersburg, and by inhuman torture and threats of death made them give up their savings of years. They locked the now prostrated old couple in a closet, and fired the house. Thompson and wife were rescued later. The thieves were arrested, but Pearman escaped.

## To Bore For Gas In Alaska.

Kokomo, Ind., Jan. 27.—Ex-Sheriff Isaac Wright and ex-County Surveyor W. F. Mann, who will head a delegation from this place to Alaska in the early spring, are figuring on drilling a natural gas well at Dawson City on their arrival there. The estimated cost of getting a drilling outfit to that country and sinking a well 1,000 feet deep is \$20,000. It is believed from the geological formation that gas can be found in Alaska, and a good supply of natural gas fuel in that frigid climate would be a bonanza.

## A Criminal Captured.

Brazil, Ind., Jan. 27.—The police captured Samuel Pierman, alias John Howard, wanted at Veedersburg on a charge of burglarizing the home of Enoch Thompson and wife, an aged couple, near there. By inhuman torture, the old people were compelled to give up their savings. They then locked them in a cold closet and set fire to the house. The fire went out and the old folks were rescued.

## REASONABLE DOUBT.

### A Judge Errs In Excluding the Public From Court.

Buffalo, Jan. 27.—The right of courts to exclude the general public from a trial because of the obscene or indecent character of the evidence expected was treated in an opinion handed down by Justice Titus of the supreme court in the case of the people against William E. Hall.

Hall was tried in Rochester for extortion and the county judge shut out the newspaper reporters and every one but the witnesses, holding that the public good required that this be done, on account of the disgusting and revolting nature of the testimony.

An application was made to Justice Titus for a certification of reasonable doubt of the guilt, the argument being made that he had been denied his right to a "speedy and public trial." Justice Titus granted the certificate.

## Petroleum Heats Gold.

Paintsville, O., Jan. 27.—Some advance information of a report to be issued regarding the oil and gas industries of this country, says that the outcome of petroleum wells is more valuable than the production of gold mines, including those in the Klondike. The total amount of gold mined in 1896 was \$53,000,000, and the value of the petroleum produced was \$58,000,000. ## EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.  
ROSSER & McCARTHY,  
Proprietors.

THURSDAY, JANUARY 27, 1898.

For Kentucky.—Fair; warmer Thursday night; westerly winds.

The Kentucky and Tennessee Board of Fire Underwriters has made a big cut in insurance rates in many Kentucky towns, a cut of 20 and 25 per cent, being made in nearly all cases. Maysville is not on the list of favored cities, and yet if there is a city in Kentucky entitled to a reduction it is Maysville. The insurance business in this city last year was almost a net profit to the companies. There was not a single fire of any consequence. In addition to this there is not another city in Kentucky that has as good protection against fire. While engaged in reducing rates the company should do the fair thing. It would be better for the Legislature to pass that bill to break up this insurance trust.

## The Murrays.

The Murrays Comedy Co. again present an amusing play last night entitled "Outwitted." Mr. Whitman as "Felix Featherstone" portrayed the nervous husband in a most artistic manner. Mr. Nelson, the author of the play, was at his best as "Uncle John." Miss Patee as the wife, Miss Lane as her sister, and Miss Gennell as "Penelope," were all good.

The Ferguson Bros. scored another big hit last night, Albert, the elder, receiving encores for his wonderful dancing. Mr. Robison and Miss Gennell were both heartily received in their respective specialties.

To-night they produce a western drama in four acts entitled "Triss." The Ferguson Bros. will appear in an entirely new sketch entitled "The Two Cunning Little Coopers," assisted by C. H. Ferguson.

Ten dollars in gold will be given to the holder of the lucky number Saturday night.

Rev. S. D. Dutcher Given a Reception.

[Cincinnati Enquirer.]

The congregation of the Walnut Hills Christian Church, Locust street, near Park avenue, tendered a reception to their new pastor, Rev. S. D. Dutcher, Tuesday night. The church was crowded to its utmost capacity by members of the various Christian churches of this city. Addresses of welcome to the new pastor were made by Revs. A. M. Harvnot, F. M. Raines, S. M. Cooper, B. L. Smith, John K. Hester, H. J. Seamen, and P. Y. Pendleton. Mr. Dutcher made a touching response. Following the addresses refreshments were served by the ladies of the church.

## That Electric Railway Project.

Fleming Gazette: "The Maysville and Mt. Sterling Turnpike Company, in a letter to the Fiscal Court last week, offered to sell their five miles of road in this county between here and Maysville, for \$8,000, provided they would be allowed to retain a right-of-way for an electric railway line over the road. This is where the talk of an electric railway between here and Maysville originated."

HECHINGER & Co. offer every garment in their fine stock of high class clothing at one-third less than the regular price. Such an offer is, of course, for cash only. This is the last cut the firm will make this winter, and it holds good until February 15th. If you want a bargain in high class clothing, now's the time to secure it.

LEXINGTON Argonaut: "Mr. and Mrs. Ernest March gave a beautiful dining at their pretty cottage on West High street, in honor of Miss Jessie Yancey, of Maysville. Holly and mistletoe decked in charming profusion the tasteful rooms, and made a perfect bower of loveliness. The table was beautifully set, pink tones prevailing in the table decorations. Rosy waxen tapers shed a soft light midst pink roses and carnations, and lovely scattered ferns showed with charming effect upon the snowy damask of the cloth. At this beautiful board covers were placed for a dozen guests, and here a very delightful menu was enjoyed as the merry jest went round. After dinner a happy time was spent with games, &c., and reluctantly were the good nights spoken, amidst all good wishes for the coming year for the genial host and his charming wife."

## Something to Know.

It may be worth something to know that the very best medicine for restoring the tired-out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the liver and kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c. or \$1 per bottle at J. J. Wood's drug store.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Diinondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

### A SERIOUS MISTAKE

That Will Nullify Many of the Acts Heretofore Passed by the Legislature.

FRANKFORT, KY., Jan. 25.—Quite a sensation was unearthed to-day when it was announced by Senator Bronston, from the Judiciary Committee, that all bills drawn to amend certain sections of the Kentucky Statutes were improperly drawn, and therefore would be null and void if passed. It seems that the Kentucky Statutes, as such, have never been adopted as a whole, as the law of the State, and therefore any bill proposing to amend the said statutes is proposing to amend something that is not legally in existence.

From this it necessarily follows that all bills passed at the last session, purporting to amend certain sections of the Kentucky Statutes, are of no force or effect. If the bills seeking to amend had referred to the section and chapter of the original act, they would have been all right, but they did not do this. Just what bills were so passed and now supposed to be the law can not be ascertained to-night, but it is the opinion of the best lawyers here that the above view of the case is correct, and a costly tangle will result.

### River News.

Stanley due up to-night and Lizzie Bay down.

Keystone State down this morning. She is to-night's packet for Pittsburg.

The Bonanza passed down at noon Wednesday, having been delayed by the high wind the night before. She made a good run to Cincinnati and return, passing up at 5 o'clock this morning.

The Pittsburg Press of the 21st says: "For the past few weeks the packets plying between this city and Cincinnati have been unable to handle all of their trade. The Pittsburg and Cincinnati Packet Company has done more business in the past three weeks than ever before. They have handled over 3,000 barrels of molasses and sugar since the first of January, besides doing their regular way business. Their passenger traffic is also very large and is increasing every day. Letters from all over the country are received every day from parties who contemplate going South and wish to travel by boat. Yesterday a letter was received from a party in New York asking for rates for 100 people who wish to make the round trip from Pittsburg to Cincinnati on the Queen City."

## We'll Break the Rule.

January, as a rule, is a dull month for Clothing people. We believe much of the dullness is the fault of the merchants. They labor under the impression that nearly everyone has laid in their winter supplies and fear to expend money for printers' ink. We will break the rule and see what virtue there is in printers' ink and the offer of good Clothing at about 50 cents on the dollar. Now the first thing you want to do is to read this ad. carefully; the next is to come and see the goods advertised. What will follow will be a rule-breaker.

On Thursday morning, January 13th, and until the end of the month, all our fine Beaver Overcoats—garments that sold for \$10, \$12 and \$15, will go at \$8.75.

Our finest Beaver, Kersey and Cover Overcoats that sold at \$18, \$20 and \$25 will go at \$15.

Our Cheviot and Cassimere Suits that sold at \$10, \$12 and \$13.50 will go at \$8.75.

Our finest Cheviots, Worsted, and Cassimere Suits that sold at \$15, \$18 and \$20 will go at \$12.

We need not comment on qualities. Everybody knows what class of Clothing we sell.

**\$4.90. \$4.90. \$4.90**

This represents the selling price of 260 all wool Cassimere and Cheviot Suits that we recently closed out from C. Meyers & Bro., Philadelphia. Not a Suit in the lot that isn't worth \$9. ### How to Prevent Dreams.

"After a series of experiments on myself and others," ventured an experienced physician to a reporter, "I am convinced that many annoying dreams, which in many instances rob sleep of much of its recreation and benefit, can be prevented if persons will take the trouble to do so. There are dreams which are produced by an overloaded stomach and indigestion. These can be prevented by not overloading the stomach and taking care, especially in the evening, not to eat that which experience has demonstrated is not easily digested. A fairly filled stomach is, however, less conducive to dreams than an absolutely empty one. I think I can safely say that if those persons who are troubled much by dreaming will wear extra long sleeves to their nightgowns they will find a remedy thereby. What is even better than long sleeves is to put a rubber cord in the hem of the sleeves, so that they will not slip up on the arm. The rubber cord should not be tight enough to interfere any way with the circulation of the blood in the arms, but still tight enough to keep the ends of the sleeves well down on the wrists.

"To the bachelors and others who cannot have their sleeves properly arranged the same effect can be secured by wearing a wristlet on the wrist, or, better yet, to pull a sock over the hands and pin the leg of it to the sleeves of the nightgown. In addition to preventing dreams this simple arrangement will be found extremely comfortable during the cold nights of the next couple of months. A little inquiry will convince any one that those whose wrists and forearms are uncovered are annoyed most by dreams. The sock used as a kind of an extended glove will effectually stop them, but it must be attached to the sleeve of the nightgown; otherwise the sleeve will work up the arm and the desired effect be lost. My remedy, in brief, is to keep the hand, wrist and forearm well covered." — Washington Star.

### The Smallest Electric Motor.

What is said to be the smallest electric motor in existence was made to be worn as a scarfpin by D. Gordin, a jeweler and watchmaker of McKinney, Tex. Complete it weighs 1 pennyweight 8 grains. The front of the motor is of highly polished gold, and the commutator segments are also of gold. Viewed from the front the motor presents only a gold appearance. The field magnets are made of two thicknesses of No. 22 sheet iron scraped down and polished. These are held together with gold screws and wound with No. 28 silk covered wire. The armature is of the four pole type and is wound with No. 36 wire. The little brushes are of hammered copper and are, of course, very thin. There is a small gold switch on a black rubber base, made with a pin, to be worn on the lapel of the vest. A small chloride of silver battery, carried in the vest pocket, furnishes current for the operation of the little machine. The motor runs at a very high speed, and its humming can be distinctly heard by any one standing near the wearer.—New York Times.

**Pat's Reasoning.**  
Says a writer in the Manchester Guardian:

"A lady of my acquaintance who is a proprietress in County Galway is in the habit of receiving her own rents. One day, when tenant farmer had pleaded long and unsuccessfully for an abatement, he exclaimed as he handed over the money:

"Well, my lady, all I can say is that if I had my time over again it's not a tenant farmer I'd be. I'd follow one of the learn'd professions."

"The proprietress gently replied that even in the learned professions there were losses as well as gains, and perhaps he would have found professional life as precarious as farming."

"Ah, my lady, but how can that be?" replied the son of St. Patrick. "If you're a lawyer—win or lose, you're paid. If you're a doctor—kill or cure, you're paid. If you're a priest—heaven or hell, you're paid."

**Count Ludwig Tisza Dead.**  
Budapest, Jan. 27.—Count Ludwig Tisza is dead.

## ANOTHER BALLOT.

Still the Tennessee Legislature Fails to Elect a Senator.

Nashville, Jan. 27.—The two branches of the general assembly met in joint convention and the vote taken for United States senator was announced. Another ballot was taken and resulted in McMillin receiving four votes, Turley three and Taylor two. Two of the Populist members voted for McMillin and one for Turley. The other Democratic votes were scattered, as was done before. The Republicans voted solidly for Hon. G. N. Tillman.

Hosterman, Springfield Gazette; treasurer, J. P. Chew, Xenia Gazette; special committee to form a plan for a special news service from Columbus, Messrs. Dietrich, Harding, Gibbs, Shrock and Harwood.

### Prohibitionists Confer.
